## **For immediate Release**

July 11, 2002 (Simi Valley, CA) Assistingu.com, a fast growing provider of Internet Solutions for small business announced today the launch of its online store, designed to help small businesses save time and money purchasing computer and office automation supplies.

The store, located online at [www.assistingu.com/store.html](http://www.assistingu.com/store.html), lists hundreds of consumable items that small businesses use every day transacting their business. Printer supplies, fax & photocopier supplies and data storage products are all well represented from leading manufacturers, such as Hewlett-Packard, Fuji, Sony, Maxell, Epson and hundreds of others.

“Our online store helps us act like a buying group for small businesses in Ventura County”, states Debbie Keaney, Owner of Assistingu.com. “Because of our low-overhead, and the ease in which businesses can order supplies via our store, we are able to offer prices at 20-30% below the large office supply warehouses, and Next Day Delivery too!”

“We were able to negotiate very competitive prices with the same wholesalers that service the big guys” Keaney said.

The Assistingu.com online store is unique, in that it accepts credit cards securely, processed in real-time, while at the same time it has the ability to accept purchase orders from companies who have pre-established credit terms, or from Government agencies. Visitors can search for their items based on manufacturer, part number and any series of machine number and keywords.

The store can be found at [www.assistingu.com/store.html](http://www.assistingu.com/store.html).
